

Robt. L. Rowan & Assoc., Inc. **Product Line Sheet**

Revised September 03

A full line supplier of epoxy and cementitious repair products, anchor bolts, concretes, machinery support and chocking systems, corrosion control, and pipe/bottle supports. We also provide complete engineering services including: problem diagnosis, repaired design, drawings, full scope of work with write up and field service.

ROWAN PRODUCTS

Epoxy Grouts

Rowan Resins 668BF	High compressive chocking material designed for critical alignment machinery.
Rowan Resins 427 Plus	High strength epoxy grout used to support all types of equipment and motors.
Rowan Resins 396	Epoxy primer with adhesion and corrosion protection for steel and concrete surfaces.
Rowan Resins 350	High strength epoxy adhesive used to bond in construction and repair applications.
Rowan Resins 327	Epoxy adhesive used for injection into cracks in concrete.
Rowan Resins E.G.S.P.	Epoxy grout clean up solvent for Rowan Resins products.

Bolting Products

R-193™ Anchor Bolt	Specially designed for dynamically loaded equipment, where maximum clamping forces are necessary to prevent frame movement.
R-100™ Anchor Bolt	B7 all thread high strength anchor bolts.
Anchor Bolt Repair Kit	Simple fast high strength upgrade for old J style bolts or repair broken bolts.
RotaBolt™ Load Monitors	Provides a quick and accurate check of bolt torque or clamping force.
Superbolt™	High strength multi-jack bolt tensioner for anchor bolts, compressor rods, and jam nuts.
Rock Bolts	Expanding wedge anchor bolt for post tensioning applications.
Post Tension Bolts and Cable	High strength bolts and cables for vertical and horizontal post tension applications.
Screw Jack	Domed head precision lifting screw jack for compressors, pumps and other critical alignment equipment.
Heavy Hex Nuts and Couplings	2H nuts available in all sizes.
Double Spherical Washers	Prevent broken bolts. Concave convex mating washers compensate for bolt misalignment and eliminate point loading of heavy hex nut.
Canister Anchor Bolts™	Simplify equipment installation, bolt adjusts vertically, horizontally, and angularly.

Fast Setting Concrete Repair Products

R-Crete Plus™	High strength, fast curing, ready for grouting or coating with epoxies in 24 hrs.
---------------	---

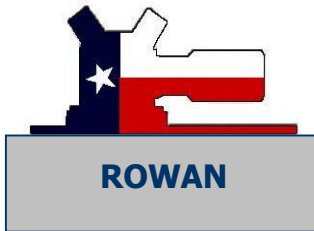

Machinery Supports

Hy-Brid™	Two piece composite steel chock with .035-inch shim pack.
Tri-Chock™	Adjustable epoxy chock. Eliminates field machinery of worn or fretted surfaces.
Tri-Brid™	Universal adjustable support system for all types of critical alignment equipment.
Lock-Chock®	Replace worn steel chocks with an adjustable support system.
Posi-Grip™ Steel Chocks	Specially coated steel chocks and sole plates increase friction coefficient.
Vibracon®SM	Eliminate soft foot or out of plane problems. Quick, simple, and adjustable.

Revised September 03

ROWAN PRODUCTS (Continued)

Pipe Supports

Rowan Pipe Supports
Tulsa Pipe Supports

Provides quick DOT inspection access.
Adjustable support for pipe 2' to 54'.

Expansion Joint Products/Sealants

Rowan Blue

A single package, caulking grade material developed for use where and oil resistant, oil tight seal is required, such as expansion joints in epoxy grout caps.

Corrosion Control

Northern Technologies International Corp

Zerust Products: Vapor phase corrosion inhibitor capsules for storage of shutdown equipment, engines and for protection of electrical boxes, switchgear, and instruments in operating plants; Zerust bags and film for parts storage.

Engine Power Cylinder Balancers

General Thermodynamics Corp

Model 300 A: A simple, practical BMEP integrator instrument for balancing engine power cylinders.

Engine and Compressor Alignment Tools

Indikon
D.R.M. Industries

Digital Web Deflection Indicator System.
Lectromaster Mercury Level Indicator System.

Miscellaneous Construction Products

Adhesive, Solvents, Sealants and Caulking Compounds, Concrete Bonding Agents, Tower Packing, EGCS, silicone, paste wax, duct seal.

Field Service Personnel

Onsite inspection, job supervision, planning, mixing, placing, installation, regrouting.

CHEMREX/MASTERBUILDERS PRODUCTS

Bonding Agents

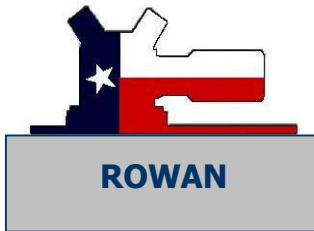

Anvil-Bond
Concresive@Paste LPL
Concresive@Paste SPL

Bonding agent, reactive two component modified aliphatic amine-type epoxy resin.
Concrete bonding adhesive with long pot life.
Concrete bonding adhesive with short pot life.

Cementitious Grouts

Masterflow@928
Masterflow@713 Plus
Masterflow@555
Masterflow @816 Cable Grout
Masterflow@1205
Embeco@885
Embeco@636 Plus Grout
Set Grout
SS Mortar
Construction Grout

High-precision, nonshrink natural aggregate grout with extended working time.
High-precision, nonshrink natural aggregate grout.
Semifluid, nonshrink, natural aggregate grout.
Fluid, nonshrink aggregate-free cable/duct grout.
High performance grout for highly stressed steel.
High-precision, nonshrink metallic-aggregate grout with extended working time.
Nonshrink metallic-aggregate grout.
General-construction, natural aggregate nonshrink grout.
High strength nonshrink, ready-to-use special filler mortar for splice sleeves.
General construction, natural-aggregate nonshrink grout.

Robt. L. Rowan & Assoc., Inc. **Product Line Sheet**

Revised September 03

CHEMREX/MASTERBUILDERS PRODUCTS (Continued)

Polymer Grouts

Masterflow®648 CP Plus	High-strength, high temperature performance, high flow epoxy grout.
Masterflow®648 CP	High-strength foundation grout.
Masterflow®648 CP Accelerator	Shortens the working time thus decreasing the cure rate at low temperatures.
Masterflow®668B Chock Grout	Epoxy chock for mounting equipment.
Masterflow®678 DP Plus	Multiple-use deep-pour epoxy grout.
Masterflow®MP	Multi-purpose epoxy grout.

Structural Repair Mortars

Emaco®S66 CI	Flowable, shrinkage-compensated structural repair concrete with integral corrosion inhibitor.
Emaco®S77 CI	Flowable, shrinkage-compensated structural repair mortar with integral corrosion inhibitor.
Emaco®S88 CI	Sprayable, shrinkage-compensated, fiber-reinforced structural repair mortar with integral corrosion inhibitor.
Masterpatch®240 CR	One-component flowable prepackaged repair concrete.

Traffic Area Repair Mortars

Set®45	Chemical-action repair mortar.
Emaco®T415	Rapid-strength repair mortar.
Emaco®T430	Rapid-strength repair mortar with extended working time.
Emaco®T1188	Fast-setting repair mortar for dowel bar retrofit and pavement repairs.
Emaco®2020	Polymer concrete system.
Emaco®2041	Bonding agent for Emaco®2020 polymer concrete system.
Masterpatch®95	Metallic-aggregate epoxy repair mortar.

Low Viscosity Epoxy

SCB Concessive®1350	Structural epoxy concrete bonding process injection resin
SCB Concessive®1360	Structural concrete bonding process injection resin with excellent penetration of fine fissures.
SCB Concessive®1370	Structural concrete bonding process injection resin with slow cure for extended pumping time.
SCB Concessive®1380	Structural concrete bonding process injection resin with a fast cure rate.
Concessive Standard LVI	Low viscosity epoxy adhesive.

Ultra Low Viscosity Methacrylate

Concresice®2070	Low-vapor pressure acrylic crack filler.
-----------------	--

Liquid Acrylic

Acrly-Set®	Liquid acrylic-polymer bonding additive.
------------	--

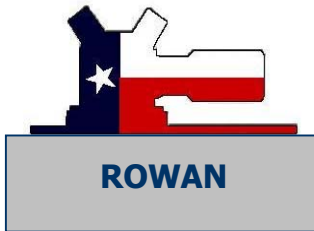

Paste Epoxy

SCB Concresice®1446	Rapid-setting paste epoxy used as structural adhesive and for surface sealing of cracks prior to injection.
Concresive®1420	General-purpose gel epoxy adhesive used for horizontal and vertical fastening of bolts, dowels, and rebar into concrete.
SCB Concessive®1422	Paste epoxy bonding agent used to bond steel and other rigid material to hardened concrete.
Concresive®1490	General purpose paste bonding adhesive used bonding concrete and other rigid materials.

Revised September 03

CEILCOTE PRODUCTS

Protective Coatings

Ceilmote 615 Ceilgard

High build flake filled maintenance coating.

Flake Reinforced Linings

Ceilmote 600 Flakeline

High build flake filled epoxy topcoat providing improved chemical resistance.

Grouts and Mortars

Ceilmote 165 Grout

Chemical resistant grout designed for pumps, vessels, and equipment that are subjected to chemical exposure.

Sealants and Adhesive

Ceilmote EJ3 and 4

Tight fitting synthetic rubber compound to effectively seal out water and many aggressive chemical solutions.

Ceilmote EJ11

Flexibilized expansion joint sealing compound designed as an expansion joint for linings and floorings as well as for sealing joints and cracks in concrete.

Ceilmote 348 Adhesive

High bond strength epoxy adhesive.

Ceilmote 380 Primer

Primer for use on concrete and steel substrates.

Ceilmote 675 Flakeprime

Catalyzed epoxy primer.

Ceilmote 680 Primer

Clear epoxy for use on concrete and steel.
